

## CS100 Call Station

Single Gang Stainless Steel Plate  
Durable Silicon Button  
RJ45 Connectivity  
Integrated Cable Breakout  
Camera Input  
Contact Closure Input

The CS100 Call Station is part of the CH1000 series Security Communications Systems. A CS100 Call Station has a call-in push button to provide a method to annunciate a normal intercom call or an emergency intercom call that is received by the DA1 Display Administrative Console. The CS100 interfaces with a SS16/SS32 Security Switching Card audio port.

The CS100 provides RJ45 connectivity for a CAT 5 cable from the SS16/SS32 Security Switching Card port. The CS100 includes Integrated breakout connectivity with a RJ45 for a camera, a terminal strip for a classroom speaker, and a terminal strip for a contact closure. Construction consists of epoxy coated silicon push button mounted to brushed stainless steel plate for durability.

Back Box: Standard Single Gang Box

Termination: RJ45, Terminal Strip

Dimensions: 4.5 inch X 2.75 Inch X 1 Inch

Required Equipment: SS16/SS32
