

## DA1 Display Administrative Console

- 8 Line by 20 Character Display
- Backlit Display
- Caller-ID Enabled
- Built in Speaker Phone
- 200 Speed Dials
- Wizard Based Operation Menu

The DA1 Display Administrative Console is part of the CH1000 series Security Communications Systems. A DA1 provides a control center for all paging, intercom, program, and telephone communication functions and clock schedule, camera, and tone functions. The DA1 8 line by 20 character backlit display provides a clear visual information center. The DA1 provides soft keys that interface with the dynamic menu system that simplifies system functions by utilizing wizards to lead the user through various functions thus reducing the training burden on the user. In addition to menus, 200 local speed dials are available to automate any room number, telephone number, system functions.

A DAI requires one TC1 Telephone Communications Module installed on the MI100 Main Interface Card found in the MC1000 Main Cabinet. A CH1000 Security Communications System supports up to 8 DA1's.

Power: 16 VAC 250 mA
