

TC1 Telephone Communications Module

DA1/Standard Telephone/PBX Port
Caller-ID
Field Upgradable

The TC1 Telephone Communications Module, part of the CH1000 series Security Communications System, adds on telephone port compatible with the DA1 Administrative Consoles, standard 2500 type telephones, or an analog CO port from a PBX.

A TC1 mounts via a header on to the MI100 Main Interface Card found in the MC1000 Cabinet of the CH1000 Security Communication System. A RJ45 jack mounted on the MI100 Main Interface Card provides a means to use CAT 5 field wire for connection to a DA1/standard 2500 type telephone/analog CO port. Each TC1 provides a single loop start telephonic link.

Port Type: Loop Start Power: 12 VDC
Required Equipment: MI100

Termination: 10 X 2 Socket (RJ45 on MI100 for field wiring)

Dimensions: 1.5 inch X 2.0 Inch X 0.25 Inch
