

## BBD905 Desk Mount back Box

### GENERAL:

Horizontal or Vertical mounting positions

$\frac{3}{4}$  Inch Knockouts for cable or conduit entry

Steel and Aluminum Construction

Black Powder Coat Finish

### For use with:

|        |                                   |
|--------|-----------------------------------|
| DAD104 | Digital Annunciator Display       |
| DS16   | Direct Select Annunciator Display |
| DK32   | Direct Select Keyboard for DS16   |
| AA903C | Master Station                    |
| AA915  | Master Station with Display       |
| MA933  | Mounting Bracket                  |

### DESCRIPTION:

The BBD905 back box is designed for surface mounting on a table or desk. Depending on personal preferences, the BBD905 can be used for either horizontal (30° Slope) or vertical (60° Slope) mounting of the Ring Master Device. Two knockouts are provided for wiring access. The BBD905 finish is powder coated black. Removable aluminum side panels allow for ganging boxes together.

The 1/8" (.125") aluminum side panels are screwed to the 18 gauge (.047") cold rolled steel housing.
