Noise (scream) detection module

DESCRIPTION:

The EMCS-900 Emergency call station is a heavy duty wall mounted intercom station with a constant on locator light. Heavy duty vandal resistant construction. Powder coated stainless steel prevents the chance of any rust. When a call is placed, a bright blue strobe will flash 60 times per minute and remain flashing until the call is answered. Once answered, two way voice communication is established. Designed for hospitals, college campuses, parking lots, shopping malls, industrial complexes, etc.

Compatible with Intercom stations (extra cost option):
SS910, SS911, SS912, SS913

Compatible with Intercom Control Boards (extra cost option):
Strobe, Horn, ADA and Camera, (AN913)
Strobe, Horn, ADA, Camera and Scream Detection (AN912EAR)
Strobe, Horn, ADA, Camera and Remote Relay control for doors and gates (AN912RR)
